	KREISEL 9.1 Additional License ^{2) 3)}	840,00	
	KREISEL 9.1 - Upgrade from Version 8.2 1st License Single User License ^{2) 4)}	1050,00	
	KREISEL 9.1 - Upgrade from Version 8.1 1st License Single User License ^{2) 4)}	1250,00	
	KREISEL 9.1 - Upgrade from version 7 and older 1. License - Single User License ^{2) 4)}	1450,00	

The invoice will be issued in euros. For deliveries within Germany, the Mehrwertsteuer-tax (currently 19%) will be charged in addition to the stated net prices. For deliveries to other EU countries, the VAT ID number must be indicated with the order (see above). The invoice will be sent as a pdf file or in paper form. e-invoice on request.

The page caption for the KREISEL 9.1 program ordered here should read:

- ☐ Dispatch on CD by post
☐ Sent as a zip file via download ⁵⁾

Date:..... Signature:.....

About the meaning of the page caption: The page caption is displayed on the screen and printed at the bottom of each page printed by the program. The following is proposed: name of the company / office on the left, city on the right. The location **should** always be included in the page caption. Only **one** place can be named. If several locations are to be named, appropriate additional licenses must be purchased. In the printout, the page caption is always centered and printed in ARIAL (Windows standard font). There is no fixed specification for the length (number of characters) because ARIAL is a proportional font. With a font in lowercase letters (with capital letters at the beginning of the word), up to 80 characters can be accommodated in the one possible line. However, overloading this line with information should be avoided because of the visual appearance.

The page signature can only be changed later upon payment of a fee by BPS GmbH.

- 1) A single-user license can be installed and used on exactly one computer. It can be transferred to another computer up to two times. An internet connection is required for installation. A multi-license or a network license can be supplied on request.
- 2) Manual as pdf file on the program CD or in the download package.
- 3) For each additional computer on which the program is to be used, an additional license must be purchased.
- 4) Upgrading for an add-on license costs 50% of the upgrade price of the first license
- 5) For deliveries outside of Germany, download should be preferred. For postal shipments outside of Germany, an additional 30€ shipping costs will be charged.
